

Cynthia L. Roth, CEO
Ergonomic Technologies Corp.

Cindy Roth has been a professional in the ergonomics, safety and health industry since 1987. In 1993 she co-founded Ergonomic Technologies Corp. (ETC) with 3 certified professional engineering ergonomists. Prior to ETC, Ms. Roth was Executive Vice President of Biomechanics Corporation of America. Ms. Roth served as the Senior Vice President and Business Manager for the Langer Biomechanics Group, also a publicly traded corporation.

Cindy has lectured to the Fortune 500 Companies in the US and the Fortune 200 International Companies. She also lectures on Ergonomics/Biomechanics/Safety and Health to universities and colleges around the world. Ms. Roth has been in a leadership role for over 25 years.

Cindy was elected as a Trustee to the American Society of Safety Engineers (ASSE) Foundation Board, and was elected as the first woman to serve as Chairperson. She currently serves as Past Chair. She was Chair of the Greater NY Safety Council and she been appointed a permanent member of New York State's Commission on International Trade and recently traveled to Brazil, Argentina and Chile on behalf of the State of New York. Ms. Roth serves as on the Advisory Boards of the NYC Department of Mental Health and Hygiene, the Ergonomics Exposition, and the publications of *Occupational Hazards* and *CTDNews*. Mrs. Roth has just published the book on Ergonomics for the National Safety Council. She also represents University of Pittsburgh on the Fiat Pax (using technology for world peace) board.

Ms. Roth serves on many national committees and is very well published with articles appearing worldwide.

Cindy received a degree from the University of Pittsburgh as a professional registered nurse with specialties in Occupational Nursing and Biomechanics. She also completed postgraduate work at Cornell University in International Labor Relations/Industrial Management.

Currently Cindy serves as the Chairperson of the Board and CEO of ETC.
