

**Constadino (Gus) Sirakis, P.E., S.E.C.B.**  
**Director of Engineering, Technical Affairs**  
**NYC Department of Buildings**

Constadino “Gus” Sirakis joined Buildings in August 2006 as Project Engineer, and helped draft the New NYC Construction Codes. Sirakis has 12 years of engineering experience in the designing and rehabilitating building structures. In early 2008 Sirakis was appointed Deputy Director of The Office of Technical Certification and Research (OTCR) where he is responsible for implementing and administering new provisions derived from the New 2008 NYC Construction Codes. In 2009 Sirakis was appointed now Acting Director of Engineering for the Department. Prior to joining Buildings, Sirakis worked for nine years as a structural engineer and project manager for an architectural and engineering consulting firm. Sirakis holds a Bachelor of Science degree in Civil Engineering from Polytechnic University in Brooklyn, NY.
